PRACTICE MANAGERS

They are responsible for overseeing the QOF (the Quality and Outcomes Framework). QOF is a component of the General Medical Services contract for GP Surgeries.

The receptionists will inform you if this is the doctor you will be seeing. As part of training we sometimes videotape consultations. This only happens with patients written consent.

To ensure we continue to meet the high standards required of training practices, we are assessed regularly by doctors from the Grampian GP Training and Education Committee. This involves inspection of some medical records. Confidentiality is guaranteed in this as in all aspects of practice work.

SPEAKING TO A DOCTOR ON THE PHONE

You can phone the practice to speak to one of the Doctors if you wish. The best time to do this is before 10am. They may not be available at that time but a message will be left for them to phone you back.

VISITS

If you require a home visit, please try to phone the surgery between 8.30 am and 10.00 am, as requests later in the day may lead to interruption of surgeries. Where possible we prefer to see patients in the surgery. Often you may be seen sooner by attending the Health Centre.

They will leave a message about the tests with the receptionists once the results are received. To respect patient confidentiality the receptionist can only give information to the patient.
