To ensure we continue to meet the high standards required of training practices, we are assessed regularly by doctors from the Grampian GP Training and Education Committee. This involves inspection of some medical records. Confidentiality is guaranteed in this as in all aspects of practice work.

VISITS

If you are too ill to attend the surgery and require a home visit, please try and telephone the surgery between 8.30am and 10.00am. The receptionist will ask you for some details about your illness, so that the doctors can plan and attend the most urgent cases first. Please remember that home visits are for seriously ill patients and people who are housebound. The doctor can see 4 or 5 patients at the surgery in the time it takes to do one home visit. There are also better facilities for examining and treating patients at the Practice so we would appreciate your support in attending the practice wherever possible.

OBTAINING RESULTS

Patients who have had laboratory tests or x-rays can telephone the practice for the results. The Doctor or Nurse will inform you of when the results are likely to be available. They will leave a message about the tests with the receptionists once the results are received. To respect patient confidentiality the receptionist can only give information to the patient.
